Statement of Purpose: Major Trauma Audit

Title	Major Trauma Audit (MTA)	
Year established	2013	
Web address	http://www.noca.ie	
Managing Organisation	National Office of Clinical Audit (NOCA)	
Aim	The MTA will drive quality improvement to achieve the best possible clinical outcomes for trauma patients in Ireland.	
Objectives	<ol style="list-style-type: none"> 1. Support the collection of high-quality data in line with HIQA standards on all major trauma patients in Ireland for local, national and international reporting and comparison. 2. Promote the use of the data for reflective clinical practice, peer review and quality improvement in order to improve quality of care and reduce death and disability from trauma. 3. Provide high-quality data in order to enable research. 4. Work towards collecting quality-of-life and functional outcome measures which provide greater sensitivity to patient-centered outcomes. 	
Overall function and purpose	MTA captures data on the injured trauma patients to drive quality improvement.	
Summary of NAHM	In 2013 MTA was established in NOCA using the Trauma Audit Research Network (TARN) methodology. The focus of this audit is to capture data on the injured trauma patients. NOCA provides governance for this audit and the MTA governance committee comprises both clinical and non-clinical stakeholders with an interest in trauma care.

Governance and Managing Structure

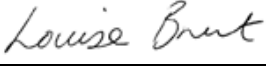

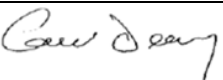

The NOCA Governance Board, is an independent voluntary board, convened to oversee and guide the strategic direction of NOCA. Individual NOCA audits are governed by a Governance Committee which makes strategic decisions relation to the audit, and oversees operational plans. The MTA Governance Committee includes relevant clinical and management stakeholders and two patient public interest representatives. The MTA Governance Committee is supported by an ad-hoc subcommittee and an operational team. An annual MTA writing group is established to write the report. The operational clinical audit team (Audit Manager working with the NOCA Clinical Lead, and supported by the NOCA executive team) is responsible for the development, implementation and reporting from the audit.
